AutoCAD is used by architects, contractors, engineers, land surveyors, construction workers, and designers to create both 2-D and 3-D drawings. The 2-D drawings can be manipulated using commands, but they do not have the capability to be built, operated, or viewed in 3-D. The 3-D drawings have both 2-D and 3-D capabilities. AutoCAD has a unique profile and registration number. The profile name can be changed, and a user's profile information can be stored on local hard drives and on a central AutoCAD server, which enables central management of user profiles. The registered users are listed on a register, which displays a list of every AutoCAD user.

AutoCAD users are connected to the network using a user's computer account.

To prevent unauthorized access, each computer is assigned a user name and a unique password. A view of the United States Marine Corps War Memorial (Vietnam Veterans Memorial) in Washington, DC, on May 23, 2001. The memorial cost \$1.4
